

# HELLOWEEN

## Pumpkins United

Take heed, beware, there's something in the air  
Grown to an almighty size  
It's loud and it gleams and with fury it screams  
See the big pumpkin arise

From out of sight it's been  
But growing deep within  
To boiling point excited  
The fire is ignited

Here we are, here we go  
Shout it out, let them know  
Like a bright shining star  
Pumpkins united we are

We're red hot, red hot

Beware, beware, something's in the air  
The Halloween monsters arise  
The pieces brought back from the book of the dead  
By Dr. Stein brought back to life

Oh my god we burn  
The point of no return  
To pleasure point excited  
The fire is ignited

Here we are, here we go  
Shout it out, let them know  
We're a light in the dark  
Pumpkins united we are

And we're riding the sky like the eagle  
We wake up the mountain afar  
We're blasting the walls down in Jericho  
Pumpkins united we are

Pumpkins united

Red hot...

Sing it high, sing it low  
Shout it out, let them know  
We're a light in the dark  
United we are

And we're riding the sky like the eagle  
We wake up the mountain afar  
We're blasting the walls down in Jericho  
Pumpkins united we are

United we are

Red hot...united...

music & lyrics by K.Hansen, A.Deris, M.Weikath
