

HELLOWEEN

Save My Hide

I just save my hide
I just step aside
I don't wanna fight my whole life through

I know this is wrong
I know the right way
My argument strong
But silent I stay
I tried to show heart
I tried to persuade
Was muted and played

I just save my hide
I just step aside
I don't wanna fight my whole life
I don't take pride
In staying alive
I just save my hide
My whole life

I know it is pride
Or maybe it's fear
Of stepping aside
Then being kicked in the rear
But don't get me wrong
I hate what it is
The coward in this

I just save my hide
I just step aside
I don't wanna fight my whole life through

I just save my hide
I just step aside
I don't wanna fight my whole life
I don't take pride
In staying alive
I just save my hide
My whole life through
